U.S. DEPARTMENT OF COMMERCE, Malcolm Baldrige, Secretary
NATIONAL BUREAU OF STANDARDS, Ernest Ambler, Director

INTRODUCTION

As set forth in Department Administrative Order (DAO) 216-14 "Department of Commerce Participation in the Development and Use of Voluntary Standards,"^{1/} the Department of Commerce (DoC) encourages and supports participation of its staff in standards committee activities relating to the mission of the Department. Staff participate in standards development activities of U.S. private sector standardization bodies; local, State, and Federal governments; industry; and international private and treaty organizations to develop needed standards in such areas of national concern as energy conservation, public health and safety, and productivity enhancement.

Through a computerized data system, the Standards Assistance and Management Information (SAMI) project in the Office of Product Standards Policy of the National Bureau of Standards collects and disseminates information on all DoC staff participation in outside standards-writing activities. The information is obtained through the Departmental Committee on Standards Policy.^{2/} Agency representatives provide SAMI staff with copies of NBS Form 83, Record of Committee Assignment (for NBS employees) or 83a, Record of Standards Committee Assignment (for other agency employees), to record their committee activities.

This directory, published annually, contains information in three categories: Index of DoC Staff Committee Participants; Index of Committee Sponsors; and Index of Standards Activities by Departmental Agency, using a broad definition of "standards activities". Participant and organization names are listed alphabetically within each index. A list of acronyms/abbreviations and an organizational chart of the Department follow the indices.

The information contained in this directory is current as of December 31, 1986. For up-to-date information or to submit questions or comments regarding committee participation, contact the SAMI office, Room A629, Administration Building, National Bureau of Standards, Gaithersburg, MD 20899; (301) 975-4035.

The SAMI office solicits additional information concerning participation in standards activities by Department employees not already included in this directory. Copies of NBS Forms 83 or 83a are available from the NBS SAMI office.

^{1/}DAO 216-14 was published to implement OMB Circular A-119 "Federal Participation in the Development and Use of Voluntary Standards."

^{2/}The Departmental Committee on Standards Policy, established in DAO 216-14, consists of representatives from agencies within the Department. It advises the Secretary and the Director of the Office of Product Standards Policy on the implementation of OMB Circular A-119 (see footnote 1).
